**Access to Healthcare**

1. [184 districts identified for focussed healthcare: PM](#) - The Hindu Business Line  
Promising to provide equitable healthcare that addresses intra-state disparities, Prime Minister Narendra Modi today said 184 poorest performing districts have been identified where more resources would be infused and focussed programmes will be carried out. “institutionalise a system where marginalised communities receive universal health care and financial protection. We must experiment and learn from each other”.

The Central Drugs Standard Control Organisation (CDSCO) has called for the constitution of a sub-committee to examine the issue of regulating the sale of drugs over internet under the Drugs and Cosmetic Rules 1945. The first meeting of the sub-committee will be held in a couple of weeks. The CDSCO has insisted that the committee would need to furnish its report on this in three months.
